

## Press Release

Hong Kong, 21 June 2006

### SG Excel Notes 13 & 14: Achieve 28% potential coupon within one year even in volatile time!

Société Générale Acceptance N.V. ("SGA"), a wholly-owned subsidiary of the Société Générale Group, today announced the launch of **SG Excel Notes 13 and 14** to help investors tap returns from Hong Kong stocks within one year.

"Hong Kong stocks are likely to recover from the lows recently. However, the uncertainties of US interest rates and inflationary pressures on global economic growth may put pressure on the downside." said Andrew Au, Director at SG Structured Products Asia ex-Japan.

SG once again leverages the Group's product innovation to enhance the features of SG Excel Notes 13 & 14 to provide investors an alternative investment choice to directly benefit from the stock market growth, yet with more downside protection. The Notes are linked to a basket of Hong Kong blue chips and H shares which are well-positioned for growth. With the unique features of an enhanced **low strike price, booster coupons, bonus coupons**, and possible early redemption after three months, investors can profit from higher potential returns with relatively safe and flexible investment benefits.

**Series 13 Notes:**

- Hong Kong Exchanges & Clearing Ltd. (0388.HK)
- China Mobile (Hong Kong) Ltd. (0941.HK)
- PetroChina Co Ltd – H Shares (0857.HK)

**Series 14 Notes:**

- Hong Kong Exchanges & Clearing Ltd. (0388.HK)
- Ping An Insurance (Group) Co of China Ltd. - H shares (2318.HK)
- China Life Insurance Company Limited – H Shares (2628.HK)

Investors of SG Excel Notes Series will receive a **fixed coupon of 2% (Series 13) or 2.25% (Series 14)** of the denomination payable at the end of every 3-month period, and **bonus coupon of 12%** payable at maturity provided that the Series of Notes has not been early redeemed and the closing price of each share within the relevant basket is not less than 80% of its initial price on every exchange business day during the period beginning from the issue date to the final valuation date (both dates inclusive). Investors of Series 13 Notes may also receive potential **booster coupon of 8%** per annum if each of the shares in the basket is at or above 105% of its initial price.

**Key Investor benefits of SG Excel Notes Series 13 & 14 include:**

- **Fixed coupon of 2% for Series 13 Notes and 2.25% for Series 14 Notes of the denomination payable at the end of every 3-month period**

Regardless of the share price performance of the underlying Basket of Shares, investors will receive total fixed coupons of 8% for Series 13 Notes and 9% for Series 14 Notes at maturity.

- **Maximum potential total coupons of up to 28% and 21% for Series 13 and Series 14 Notes respectively over 1 year**

Apart from the fixed coupon, Investors may receive a potential bonus coupon of 12% of the denomination payable at maturity if the Notes has not been early redeemed and the closing price of each share within the relevant basket is not less than 80% of its initial price on every exchange business day during the period beginning from the issue date to the final valuation date (both dates inclusive). Investors of Series 13 Notes may also receive potential **booster coupon of 8% if each of the shares in the basket is at or above 105% of its initial price.**

- **Decreasing callable price**

In respect of each share:

- on the first valuation date, 100% of the initial price of such share;
- on the second valuation date, 95% of the initial price of such share;
- on the third valuation date, 90% of the initial price of such share.

The callable price reduces every quarter which helps increase the opportunity of early redemption after 3 months since launch.

- **Automatic early redemption**

If, with respect to the first, second or third valuation dates, the 3-day average closing price of each of the shares within the relevant basket with respect to the relevant valuation date is at or above its callable price for such valuation date, the relevant Series of Notes will be redeemed early in cash at 100% of the principal amount on the immediately following coupon payment date, together with payment of the fixed coupon and in the case of Series 13 Notes, the booster coupon (if any). No further coupon will be paid thereafter.

- **Redemption at maturity**

In respect of each Series of Notes, if the Notes have not been early redeemed and if the 3-day average closing price of each share in the relevant basket with respect to the final valuation date is at or above its strike price, the Notes will be redeemed in cash at 100% of their principal amount on the maturity date together with payment of the final coupon and bonus coupon (if any) and in the case of Series 13 Notes, the booster coupon (if any).

Otherwise, if the 3-day average closing price of any share in the basket with respect to the final valuation date is below its strike price, the Notes will be redeemed by delivering the physical delivery amount of the laggard share on the maturity date together with the final coupon, and the bonus coupon (if any). The number of the laggard share(s) to be delivered per Note is determined by the following formula:

Denomination
Strike price of the laggard share

The value of the physical delivery amount of the laggard share per Note delivered will be less, and could be substantially less, than the principal amount of the Notes.

**Other information on the Notes:**
