1.3 RISK FACTOR

In section “**RISK FACTOR RELATING TO THE NOTES**”, paragraph B. “**RISKS RELATED TO THE STRUCTURE OF A PARTICULAR ISSUE OF NOTES**” on page 52 of the Base Prospectus, the following paragraph is added:

“Risk relating to the new Benchmark Regulation

The Regulation (EU) 2016/2011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the **Benchmark Regulation**) was published in the Official Journal of the European Union on 29 June 2016 and entered into force on 30 June 2016. It applies across the European Union from 1 January 2018, with the exception of certain provisions (specified in article 59) that began to apply from 30 June 2016 and certain provisions which amend Regulation (EU) No 596/2014 on market abuse (the **Market Abuse Regulation**) and therefore became effective on the date of entry into force of the Market Abuse Regulation, 3 July 2016.

The purpose of the Benchmark Regulation is to regulate the risk of manipulating the value of indices and to reduce the risk of conflicts of interests arising. It aims at improving the quality (integrity and accuracy) of the input data and the transparency of the methodologies used by administrators and at improving governance and controls of both administrators' and contributors' activities.

The Benchmark Regulation will apply to "contributors", "administrators" and "users" of "benchmarks" in the EU, and will, among other things, (i) require benchmark administrators to be authorised or registered by the competent authority (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and to comply with requirements in relation to the administration of "benchmarks" and (ii) ban the use of "benchmarks" of unauthorised administrators. The scope of the Benchmark Regulation is wide and will apply to many interest rate indices, as well as equity, commodity and foreign exchange rate indices and other indices (including "proprietary" indices or strategies) which are referenced in certain financial instruments where used to determine the amount payable under or the value or performance of certain financial instruments traded on a trading venue or via a systematic internaliser, financial contracts and investment funds.

In order to provide a proportionate response to the risks that different benchmarks pose, the Benchmark Regulation distinguishes different types of "benchmark" depending on quantitative and qualitative criteria and subjects these different types of benchmarks to more or less stringent requirements.

The Benchmark Regulation could have a material impact on any Notes traded on a trading venue or via a “systematic internaliser” linked to a "benchmark" index, including in any of the following circumstances:

- (i) an index which is a "benchmark" could not be used as such if its administrator does not obtain the required authorisation, registration or if it is based in a non-EU jurisdiction, the equivalence conditions or recognitions and the Notes could be adjusted, redeemed prior to maturity or otherwise impacted in accordance with the applicable Terms and Conditions of the Notes; and
- (ii) the methodology or other terms of the "benchmark" could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could have the effect of reducing or increasing the level or affecting the volatility of the published level, and could lead to adjustments pursuant to the Terms and Conditions of the Notes.

The Benchmark Regulation (and further guidance in relation to it) could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements.

Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain "benchmarks", trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the disappearance of certain "benchmarks". The disappearance of a "benchmark" or changes in the manner of administration of a "benchmark" could result in adjustments to the Notes in accordance with the Terms and Conditions of the Notes, including early redemption of the Notes. Any such consequence could have a material adverse effect on the value of and return on the Notes.”

1.4 DOCUMENTS INCORPORATED BY REFERENCE

In section “**DOCUMENTS INCORPORATED BY REFERENCE**” on page 55, of the Base Prospectus, a new paragraph is added:

- “the “**Société Générale SFH – Rapport financier semestriel 2017**” including (i) the “*Société Générale SFH – Rapport de gestion semestriel présenté par le conseil d’administration du mercredi 13 septembre 2017*” (the “**2017 Half Year Board Report**”) ; (ii) “*Société Générale SFH—Etats Financiers au 30/06/2017*”, including the “*Société Générale SFH Tableau des Flux de Trésorerie*” which contains the non audited cash flow statements of the Issuer for the period ended 30 June 2017 (the “**2017 Half Year Accounts**”); and the (iii) the “*Société Générale SFH – Rapport d’examen limité des Commissaires aux Comptes sur l’information financière semestrielle – 30 juin 2017*” (the “**2017 Half Year Limited Review Auditors’ Report**”) and (iv) the “*Déclaration des personnes physiques qui assument la responsabilité du rapport semestriel 2017*” all in French language (together, the “**2017 Half Year Financial Information**”) ;”
