

Societe Generale Group Results

Third quarter and nine-month 2024 results

Disclaimer

The financial information on Societe Generale for its third quarter and nine-month 2024 financial results comprises this presentation and a dedicated press release which are available on the website:

<https://investors.societegenerale.com/en>.

This presentation contains forward-looking statements relating to the targets and strategies of the Societe Generale Group. These forward-looking statements are based on a series of assumptions, both general and specific, in particular the application of accounting principles and methods in accordance with IFRS (International Financial Reporting Standards) as adopted in the European Union, as well as the application of existing prudential regulations. These forward-looking statements have also been developed from scenarios based on a number of economic assumptions in the context of a given competitive and regulatory environment. The Group may be unable to:

- anticipate all the risks, uncertainties or other factors likely to affect its business and to appraise their potential consequences;
- evaluate the extent to which the occurrence of a risk or a combination of risks could cause actual results to differ materially from those provided in this document and the related presentation.

Therefore, although Societe Generale believes that these statements are based on reasonable assumptions, these forward-looking statements are subject to numerous risks and uncertainties, in particular in the Covid-19 crisis and Ukraine war context, including matters not yet known to it or its

management or not currently considered material, and there can be no assurance that anticipated events will occur or that the objectives set out will actually be achieved.

Important factors that could cause actual results to differ materially from the results anticipated in the forward-looking statements include, among others, overall trends in general economic activity and in Societe Generale's markets in particular, regulatory and prudential changes, and the success of Societe Generale's strategic, operating and financial initiatives.

More detailed information on the potential risks that could affect Societe Generale's financial results can be found in the section "Risk Factors" in our Universal Registration Document filed with the French Autorité des Marchés Financiers (which is available on <https://investors.societegenerale.com/en>).

Investors are advised to take into account factors of uncertainty and risk likely to impact the operations of the Group when considering the information contained in such forward-looking statements. Other than as required by applicable law, Societe Generale does not undertake any obligation to update or revise any forward-looking information or statements.

Unless otherwise specified, the sources for the business rankings and market positions are internal. This presentation includes information pertaining to our markets and our competitive positions therein. Such information is based on market data and our actual revenues in those markets for the relevant periods. We obtained this market information from various third-party sources (publications, surveys and

forecasts) and our own internal estimates. We have not independently verified these third-party sources and cannot guarantee their accuracy or completeness and our internal surveys and estimates have not been verified by independent experts or other independent sources.

The financial information presented for the financial year ending 30 September 2024 was approved by the Board of Directors on 30 October 2024. It has been prepared in accordance with IFRS as adopted in the European Union and applicable at this date. This information has not been audited.

Strong results driven by solid business performance

3. Conclusion

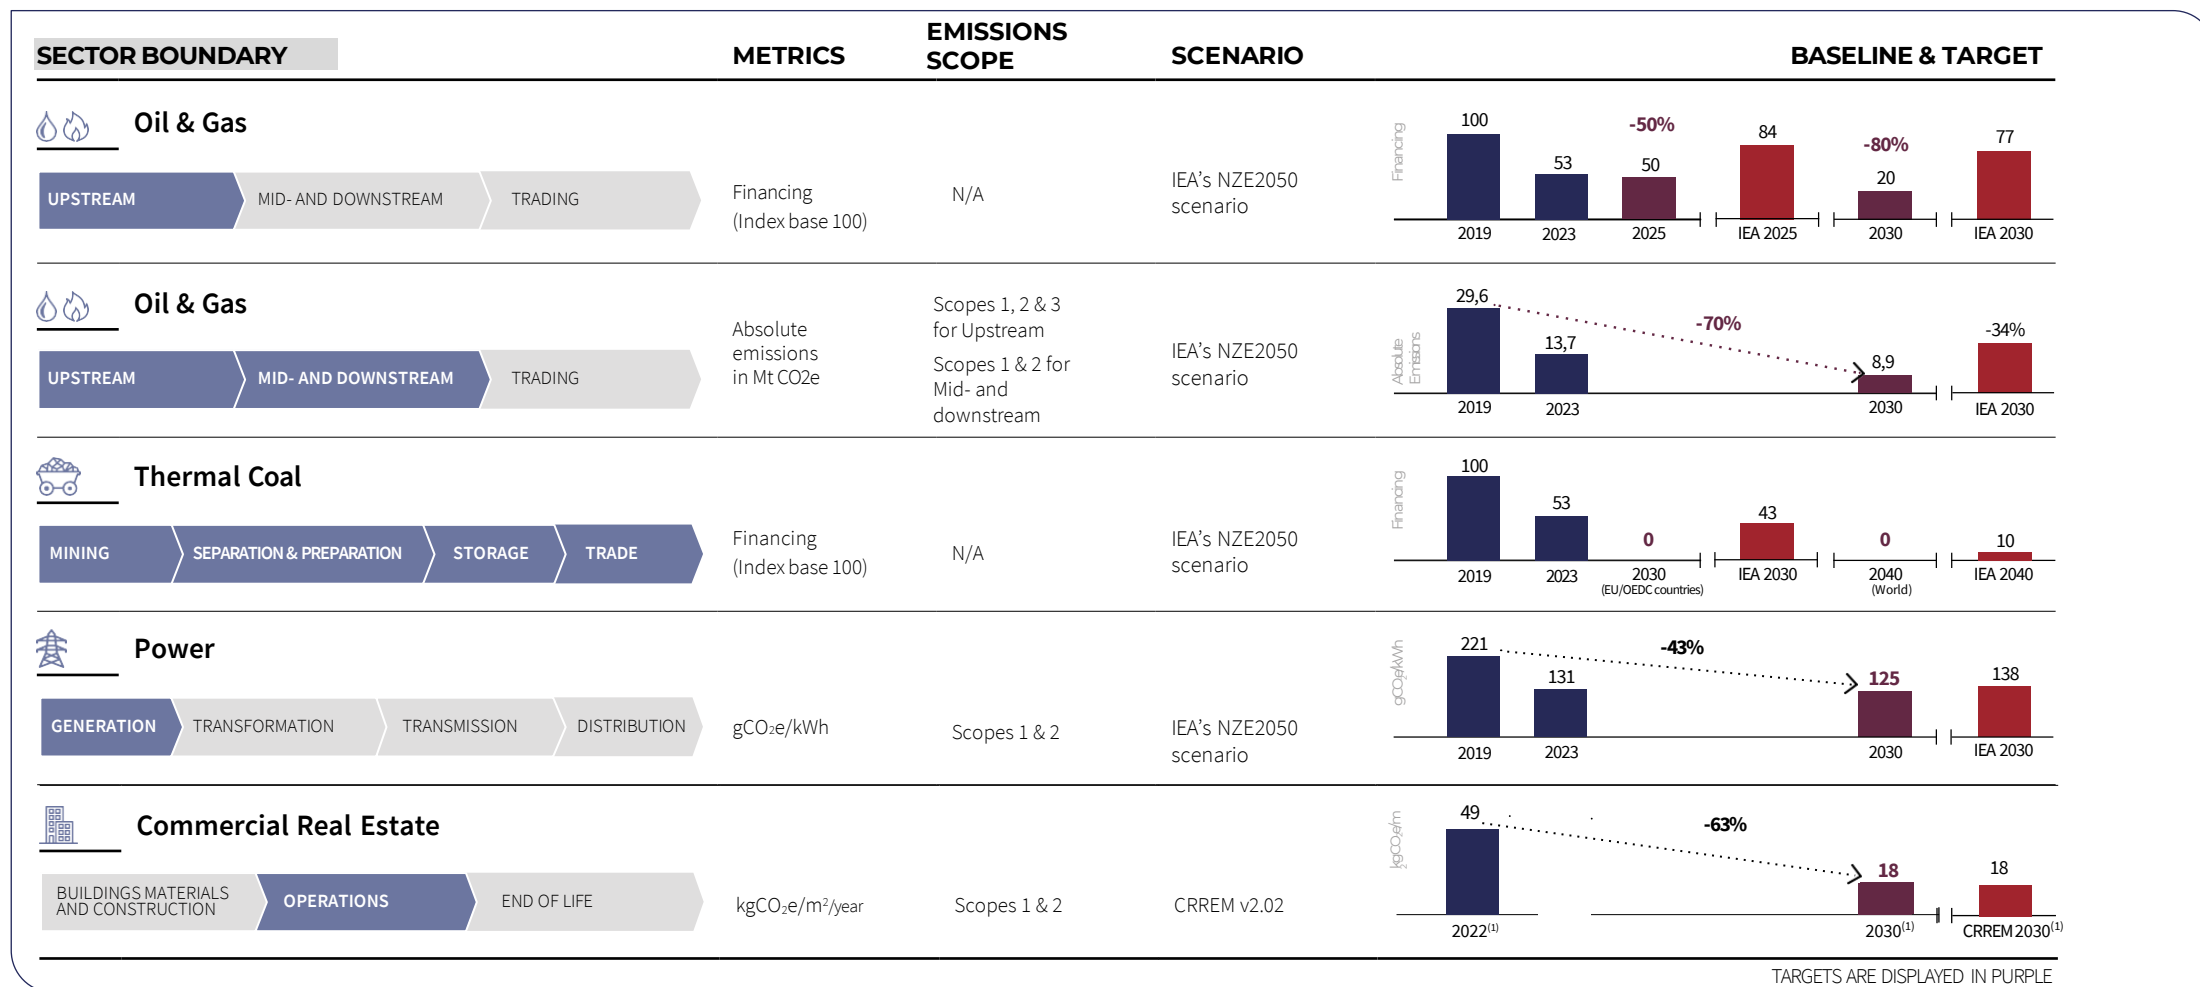

On track towards financial targets

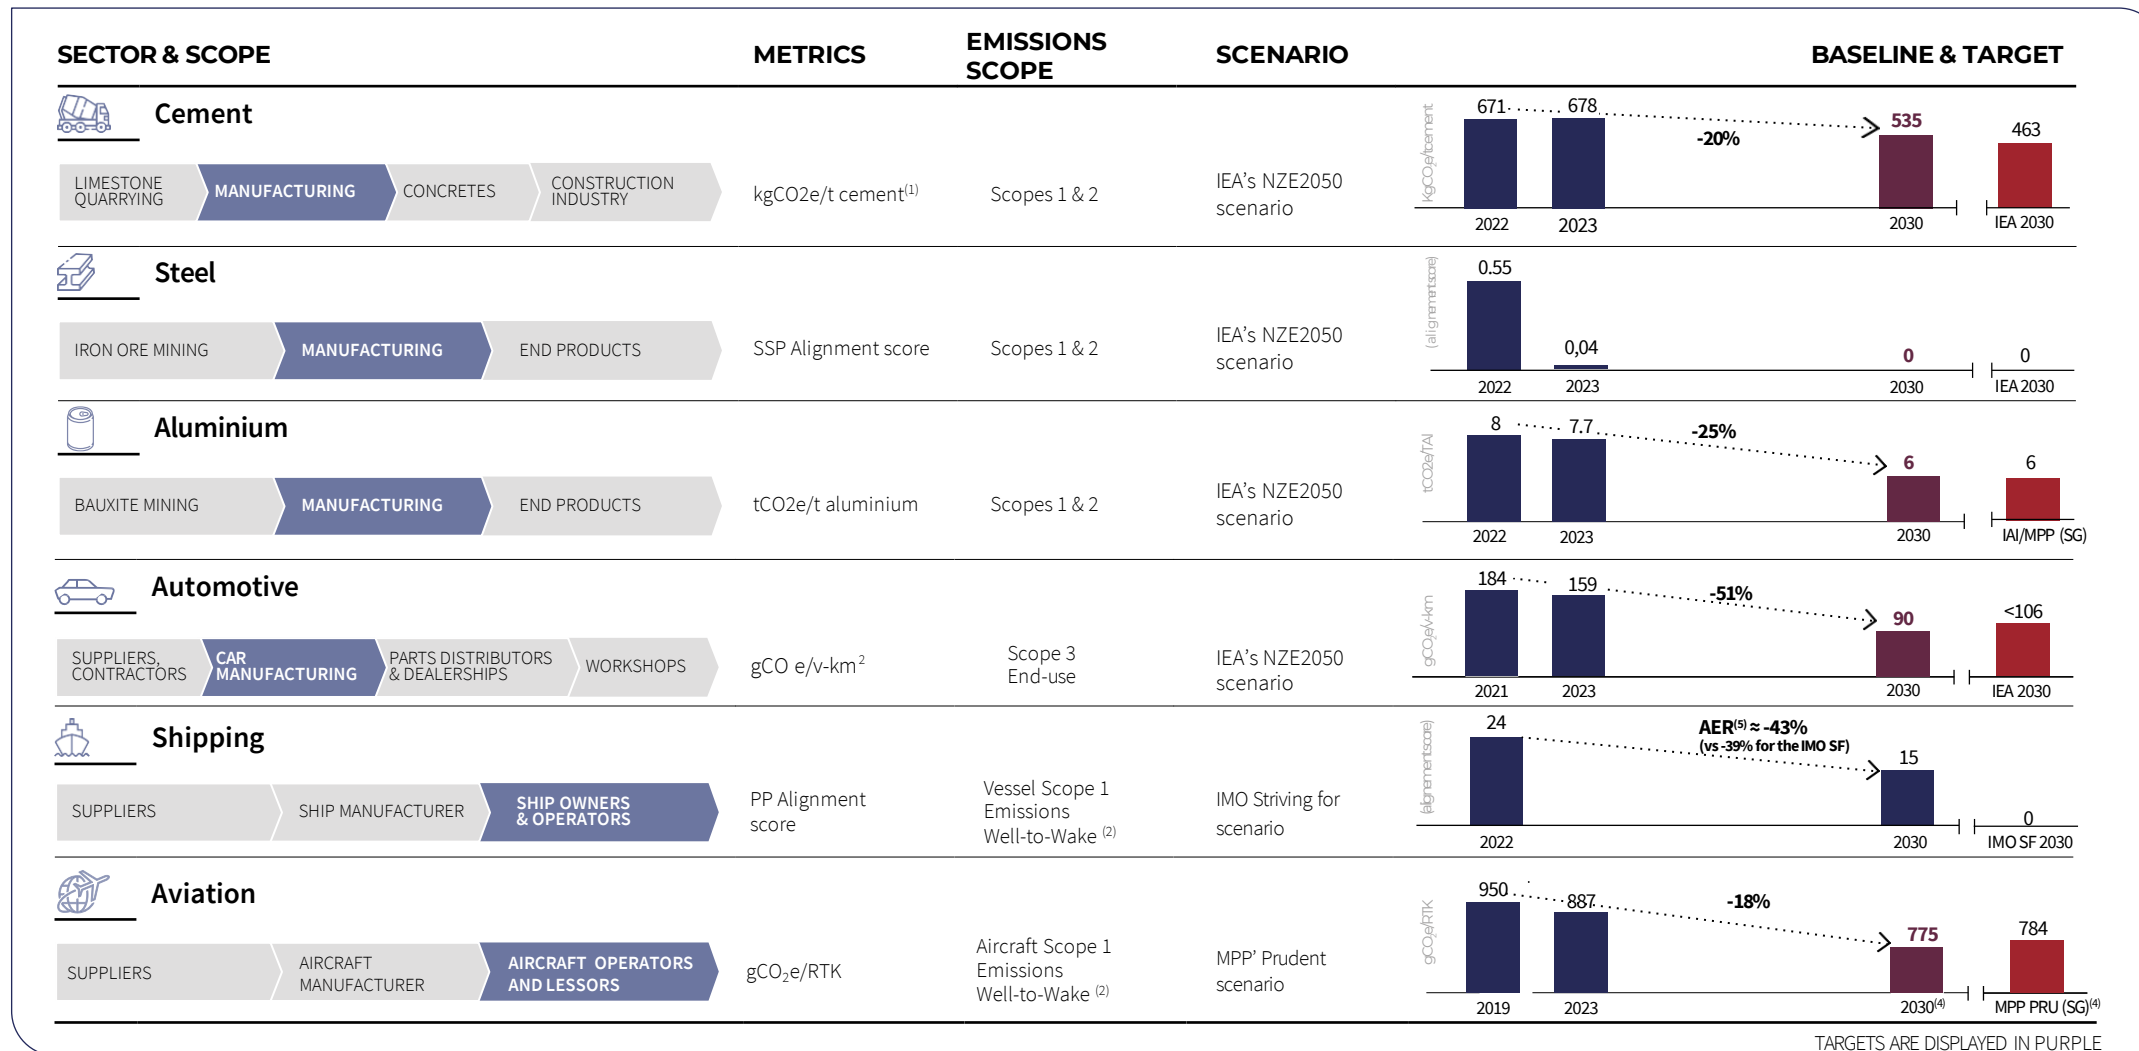

4. Supplement

NZBA portfolio alignment targets (1/2)

Societe Generale's alignment targets are presented in more detail in its NZBA report, July 2024:
<https://www.societegenerale.com/sites/default/files/documents/CSR/nzba-progress-report-2024.pdf>

NZBA portfolio alignment targets (2/2)

(1) The cement industry is a hard-to-abate sector and will require technologies that are not mature enough to accelerate its decarbonization by 2030, (2) Emissions generated during: (i) operational activities (i.e., Scope 1, or tank-to-wake emissions for shipowners) from fuel combustion on board of a vessel (ii) upstream activities (i.e., Scope 3 category 3, or well-to-tank emissions for shipowners) including extraction, cultivation, production, processing, storage, transport and bunkering of fuels, (3) The target translates into an AER reduction of 43% in 2030 vs 2022 (vs. 39% industry), (4) The target has been determined using the Pegasus Guidelines and depends on SG's portfolio mix of cargo/passenger. An alignment of the portfolio with a 1.5°C trajectory would have led to an intensity target of 781 gCO₂e/RTK.

External recognition in ESG

NB: Ratings represent those allocated at annual reviews. Number of companies in each agency universe: MSCI 201 banks; S&P CSA 664 banks, Sustainalytics 366 banks, Moody's ESG Solutions 4,882 companies, ISS ESG 285 banks

Key ESG targets

Focused on fossil fuel financing reduction

- **Oil & Gas:** -80% upstream exposure reduction by 2030 vs. 2019, with an intermediary step of -50% in 2025 vs. 2019
- **Thermal Coal:** Reduce exposure to zero by 2030 for companies in EU and OECD countries, by 2040 elsewhere

NZBA portfolio alignment targets⁽¹⁾

- **Oil & Gas:** -70% absolute carbon emissions by 2030
- **Power:** -43% carbon emission intensity by 2030
- **Automotive:** -51% carbon emission intensity by 2030
- **Steel:** alignment score target of 0 by 2030
- **Cement:** -20% carbon emission intensity by 2030
- **Commercial Real Estate:** -63% carbon emission intensity by 2030
- **Aluminium:** -25% carbon emission intensity by 2030
- **Shipping:** -43% carbon emission intensity by 2030
- **Aviation:** -18% carbon emission intensity by 2030

Ayvens fleet CO₂ emissions <90g/km by 2026 vs. 112g in 2022

Engaging our business

EUR 500bn to support sustainable finance 2024 – 2030:

- o/w EUR 400bn financing and EUR 100bn bonds
- o/w EUR 400bn on environment and EUR 100bn on social

Insurance: x2 green AuM by 2025 vs. 2020

EUR 1bn investment for the energy transition focused on:

- Emerging leaders
- Nature-based solutions
- Impact-driven opportunities for the SDGs⁽²⁾

A responsible employer of choice

- **≥35%** of women in Senior Leadership positions by 2026
- **~EUR 100m** to reduce gender pay gap
- **100% staff** offered ESG training by 2024

Cut own account CO₂ emissions by -50% by 2030 vs. 2019

CRR2/CRD5 prudential capital ratios

Phased-in Common Equity Tier 1, Tier 1 and Total Capital

In EURbn	30.09.2024	31.12.2023
Shareholder equity Group share	67.4	66.0
Deeply subordinated notes ⁽¹⁾	(9.0)	(9.1)
Distribution to be paid ⁽²⁾ & interest on subordinated notes	(1.5)	(1.1)
Goodwill and intangible	(7.5)	(7.4)
Non controlling interests	9.6	9.3
Deductions and regulatory adjustments	(7.5)	(6.6)
Common Equity Tier 1 Capital	51.7	51.1
Additional Tier 1 Capital	9.3	9.4
Tier 1 Capital	61.0	60.5
Tier 2 capital	10.4	10.3
Total capital (Tier 1 + Tier 2)	71.4	70.8
Risk-Weighted Assets	392.3	388.8
Common Equity Tier 1 Ratio	13.2%	13.1%
Tier 1 Ratio	15.5%	15.6%
Total Capital Ratio	18.2%	18.2%

Ratios based on the CRR2/CRD5 rules as published in June 2019, including Danish compromise for insurance (see Methodology). Ratio fully loaded at 13.2% and IFRS 9 phasing at +2 bps. Prudential and accounting amounts may differ upon the prudential treatment applied to items subject to specific provisions in the current regulation.

(1) Excluding issue premia on deeply subordinated notes and on undated subordinated notes, (2) The dividend to be paid is calculated based on a payout ratio of 50% of the Group net income, at the high-end of the 40%-50% payout ratio, as per regulation, restated from non-cash items, and after deduction of interest on deeply subordinated notes and on undated subordinated notes

RESTAURANTS: ~0.2% of total Group EAD

OTHERS: <0.5% of total Group EAD
(building materials, car parts' manufacturers, manufacture of metal products, wood and paper industry)

DIRECT GROUP LBO EXPOSURE: ~EUR 5bn (~0.4%)

SME REPRESENT ~5% OF TOTAL GROUP EAD (mostly in France)

(1) EAD for the corporate portfolio as defined by the Basel regulations (large corporate including insurance companies, funds and hedge funds, SME, specialised financing and factoring) based on the obligor's characteristics before taking account of the substitution effect. Total credit risk (debtor, issuer and replacement risk). Corporate EAD : EUR 387bn, (2) The grouping of business segments was reviewed in 2022 in order to comply with internal credit risk monitoring methodologies and new reporting requirements from EBA on sectors. The grouping used is based on the main economic activity of counterparties, (3) Including trading activities

IFRS 9 expected credit loss monitoring

METHODOLOGY APPLIED

As of Q3 24, IFRS 9 parameters were updated in order to take into account the current economic environment:

- 3 macroeconomic scenarios were retained to capture the uncertainties around the general economic context and the war in Ukraine: central, favourable and stress.
- Additional sector / areas-at-risk adjustments to capture specific risks not reflected by the ECL models, in particular the specific economic context with high inflation, high interest rates and the Russian-Ukrainian crisis

Republic of Chile
Active Bookrunner

EUR 1.6bn 7-year senior unsecured social bond with a coupon of 3.875% issued by the Republic of Chile. Social use of proceeds reference Chile's Sustainable Bond Framework published in November 2020

FRV Australia
Mandated Lead Arranger and Hedge Provider

AUD 1.2bn refinancing of FRV Australia's entire portfolio of eight PV plants with a total installed capacity close to 1GW. FRV Australia is owned by Jameel Energy, a global leader in solar PV, and OMERS a Canadian pension fund

ArcelorMittal
Sole Financial Advisor

Societe Generale acted as financial advisor to ArcelorMittal on the acquisition of 28.4% of the voting rights and 27.5% of the capital of Vallourec from Apollo Global Management, for a total consideration of approximately **EUR 955m**

Powerdot
Mandated Lead Arranger and Hedge Provider

EUR 165m secured green project financing for Powerdot to further deploy ultra-fast power EV charging points throughout Europe. Powerdot, partly owned by Antin Infrastructure and Grupo Arié, is a European leader in EV charging points

Methodology (1/2)

1 – Net banking income

The pillars' net banking income is defined on page 42 of Societe Generale's 2024 Universal Registration Document. The terms "Revenues" or "Net Banking Income" are used interchangeably. They provide a normalised measure of each pillar's net banking income taking into account the normative capital mobilised for its activity.

2 – Operating expenses

Operating expenses are defined on page 42 of Societe Generale's 2024 Universal Registration Document. The term "costs" is also used to refer to Operating Expenses. The **Cost/Income Ratio** is defined on page 42 of Societe Generale's 2024 Universal Registration Document.

3 – Cost of risk in basis points, coverage ratio for non-performing loans

The cost of risk is defined on pages 43 and 770 of Societe Generale's 2024 Universal Registration Document. This indicator makes it possible to assess the level of risk of each of the pillars as a percentage of balance sheet loan commitments, including operating leases. The gross coverage ratio for non-performing loans or "doubtful outstandings" is calculated as the ratio of provisions recognised in respect of the credit risk to gross outstandings identified as in default within the meaning of the regulations, without taking account of any guarantees provided. This coverage ratio measures the maximum residual risk associated with outstandings in default ("non-performing").

4 – ROE, RONE, ROTE

The notion of ROE (Return On Equity) and ROTE (Return On Tangible Equity), as well as the methodology for calculating it, are specified on pages 43 and 44 of Societe Generale's 2024 Universal Registration Document. This measure makes it possible to assess return on equity and Societe Generale's return on tangible equity.

RONE (Return on Normative Equity) determines the return on average normative equity allocated to the Group's businesses, according to the principles presented on page 44 of Societe Generale's 2024 Universal Registration Document.

The net result by the group retained for the numerator of the ratio is the net profit attributable to the accounting group adjusted by the interest paid and payable to holders of deeply subordinated notes and undated subordinated notes and issue premium amortization. For ROTE, income is also restated from goodwill impairment.

5 – **Net assets and tangible net assets** are defined in the methodology, page 45 of the Group's 2024 Universal Registration Document.

6 – Calculation of Earnings Per Share (EPS)

The EPS published by Societe Generale is calculated according to the rules defined by the IAS 33 standard (see page 44 of Societe Generale's 2024 Universal Registration Document). The corrections made to Group net income in order to calculate EPS correspond to the restatements carried out for the calculation of ROE and ROTE.

Methodology (2/2)

7 – The Societe Generale Group's Common Equity Tier 1 capital is calculated in accordance with applicable CRR2/CRD5 rules. The phased-in ratios include the earnings for the current financial year and the related provision for dividends. The difference between phased-in ratio and fully-loaded ratio is related to the IFRS 9 impacts. The leverage ratio is calculated according to applicable CRR2/CRD5 rules including the phased-in adjustment in accordance with solvency ratios.

8 – The **liquid asset buffer or liquidity reserve** includes 1/ central bank cash and deposits recognised for the calculation of the numerator of the LCR ratio, 2/ liquid assets rapidly tradable in the market (High Quality Liquid Assets or HQLA), unencumbered net of haircuts, as included in the numerator of the LCR ratio and 3/ central bank eligible assets, unencumbered net of haircuts.

9 – The **“Long Term Funding” outstanding** is based on the Group financial statements adjusted by the following items for a more economic reading: interbank liabilities and debt securities issued with a maturity above one year at inception. Issues placed in the Group's Retail Banking network (recorded in medium/long-term financing) are removed from the total of debt securities issued.

10- Funded balance sheet, loan/deposit ratio

The **funded balance sheet** is based on the Group financial statements. It is obtained in two steps:

- A first step aiming at reclassifying the items of the financial statements into aggregates allowing for a more economic reading of the balance sheet. Main reclassifications: Insurance: grouping of the accounting items related to insurance within a single aggregate in both assets and liabilities.

Customer loans: include outstanding loans with customers (net of provisions and write-downs, including net lease financing outstanding and transactions at fair value through profit and loss); excludes financial assets reclassified under loans and receivables in 2008 in accordance with the conditions stipulated by the amendments to IAS 39 (these positions have been reclassified in their original lines).

Wholesale funding:

Includes interbank liabilities and debt securities issued.

Financing transactions have been allocated to medium/long-term resources and short-term resources based on the maturity of outstanding, more or less than one year.

Reclassification under customer deposits of the share of issues placed by French Retail Banking networks (recorded in medium/long-term financing), and certain transactions carried out with counterparties equivalent to customer deposits (previously included in short term financing).

Deduction from customer deposits and reintegration into short-term financing of certain transactions equivalent to market resources.

- A second step aiming at excluding the contribution of insurance subsidiaries, and netting into “other items” derivatives, repurchase agreements, securities borrowing/lending and other assets and liabilities.

The Group **loan/deposit ratio** is determined as the division of the customer loans by customer deposits as presented in the funded balance sheet.
